

KRITHIKA D V

Bengaluru , Kamataka dvkrithika72@gmail.com
[[linkedin.com/in/krithika-d-v-79b558335/](https://www.linkedin.com/in/krithika-d-v-79b558335/)] <https://github.com/dvkrithika72-snpasu>

Career Objective

Passionate student and aspiring technologist focused on the intersection of Full-Stack Development, Data Science, and Machine Learning.
Proven ability to build impactful solutions through hands-on experience with Python and React.
Seeking to apply my problem-solving skills and interest in real-world industry challenges to a professional internship that fosters technical growth."

Education

Sapthagiri NPS University , Bengaluru B.E(Bachelor of Engineering) in C omputer Science & Engineering	Oct 2024 - Sept 2028 CGPA: 8.60
---	------------------------------------

Lakshya PU College, Bengaluru Intermediate (KSEAB)	April 2022 - Mar 2024 Percentage: 93.83
--	--

Jawahar Navodaya Vidyalaya , Galibeedu Matriculation (CBSE)	Mar 2021 - Mar 2022 Percentage: 87.2
---	---

Skills

Programming & Scripting: Python, JavaScript, Basics in C , C++ , Java
Web & DevOps Tools: HTML, CSS, React.js, REST APIs, Tailwind.
Core Fundamentals: Operating Systems, Data Structures & Algorithms, DBMS, AI Prompts
Tools & Version Control: GitHub, VS Code, Jupyter Notebook

Projects

Threat Intelligence Correlation Engine (TICE)

Tech :Python, FastAPI, httpx, Pydantic, asyncio, React, REST API.

Team Members: 5

- **Python & FastAPI:** Utilized Python's asyncio ecosystem and the FastAPI framework to build a high-performance asynchronous REST API capable of handling concurrent I/O-bound tasks.
- **Data Aggregation & Normalization:**
Developed an automated engine that concurrently queries multiple OSINT threat intelligence APIs (e.g., VirusTotal, AbuseIPDB) and normalizes fragmented JSON responses into a standardized data model.
- **Scoring Engine:**
Architected a weighted scoring algorithm that evaluates threat severity and source reliability to generate a unified risk assessment score (0-100) for suspicious IP addresses.
- **Threat Attribution & Visualization:** Engineered a system that generates comprehensive threat reports and visualization is done

CHAIN IQ

Tech: Apache Kafka, Flink, Gemini 1.5, Neo4j AuraDB, FastAPI, Redis, React.js, Google Cloud Platform (GCP). **Team Members:**4 •**Real-time Data Processing:**

Engineered a high-throughput ingestion pipeline using Apache Kafka and Flink to process global signals and stream supply chain data in real-time.

•**Full-Stack Infrastructure:**

Built a secure, scalable dashboard using FastAPI, Redis, and React.js on GCP, protected by JWT and RBAC for enterprise-grade security.

•**Supply Chain Impact:**

Delivered an "immune system" for supply chains that achieved an 82% reduction in damage during testing by transforming manual monitoring into selfhealing autonomous action.

Certifications

Apply AI | Cisco Networking Academy

Practical automation and LLM implementation for professional workflows.

Claude/ AI Fluency: Framework: | Anthropic AI

Gained proficiency in prompt engineering, model alignment, and understanding AI safety frameworks.

Claude Code in Action | Anthropic AI

Practical certification focused on integrating Claude's API into software workflows, automating coding tasks, and leveraging AI for rapid application development and debugging.

DBMS Part 2 Certification | Infosys

Advanced implementation of ACID properties, concurrency control, and transaction management.

Agentic AI by opencode | Udemy

Building your free ai workspace

Achievements

Promoted to Core Leadership : Elevated to IT and Innovation Head at Shakthi Foundation after one year of high-impact service as a volunteer, demonstrating exceptional leadership and technical growth.

Personal Details

Father's Name : Vasantha A N

Mother's Name : Geetha CH

D.O.B: 08 – 02 - 2006

Address: #3 Innovative MK Enclave , Behind Makli Bus Stop , Nelamangala , Bengaluru

Declaration

I hereby declare that the above details are true and correct to the best of my knowledge.

Place: Bengaluru
